Dhwani more than a celebration, these six letters represent the voice of a legacy that has echoed through generations. Rooted in the spirit of CET, Dhwani embodies creativity, passion and the timeless bond between art and expression.

"Great things have humble beginnings." What started as a cultural celebration under CETEX in 1999 has grown into CET's flagship inter-collegiate cultural festival — a three-day extravaganza of competitions, workshops, performances and unforgettable experiences.

Continuing to preserve the essence of culture while inspiring young minds, Dhwani 2026 brings together vibrant celebrations, three spectacular Pro Shows featuring renowned national and international artists, and a peak attendance of 60,000+, transforming the campus into a hub of energy, creativity and connection.

The word "Dhwani" is written in a bold, red, cursive script font. The letters are fluid and connected, with a slight upward curve at the end of the word. The color is a vibrant red, and the font style is reminiscent of a signature or a stylized brand mark.
